SECOND STORM IN RICHMOND

State Capital Swept Yesterday Afternoon by Fifty Mile Gale

BUILDINGS WRECKED

Three Inches of Rain Falls in Four Hours—Main Street Under Water —People Homeless.

Richmond, Aug. 4—Forty-eight hours behind the storm which on Sunday ravaged Richmond from every corner of its uneven square and made of Shockoe Creek a raging river, the skies were sundered again yesterday afternoon by a downpour which exceeded the other in violence and intensity.

Again Main Street, between Fifthteenth and Seventeenth was flooded with from three to five feet of water; again Shockoe Creek walled up and backed away from the fallen ruins of the buildings which stood above its arch, and again Main Street merchants watched the yellow tide sweep into their basements and ground floors and roll around their counters.

It was necessary again last night for men to risk their lives to save negro families on North Fifteenth Street, between Marshall and Brown. Every family had been ordered out by Building Inspector Butler after the flood of Sunday, but a few, when the water had receded, crept back through mud and slime to their whilom domiciles and sought refuge beneath unstable roofs and on trembling basement joists. When the new danger had become apparent, Major Werner, Captain Sowell and Policeman Spurr and Griffin went to the danger zone, and saw three negro women screaming from a window for help. One of them, overcome by her terrible fear had discarded all her clothing.

Mayor Ainslie has issued a proclamation calling on the public to come to the relief of the flood sufferers.

At Milford, on the Richmond, Fredericksburg and Potomac Railroad, the depot was turned over by the wind, and twenty of thirty wire poles were blown down. At Keysville, on the Southern Railway, it was reported that $50,000 damage had been done.

Numbers of dwellings were overturned or partially demolished. There was no loss of life, so far as the information came. At Stoney Creek, on the Atlantic Coast Line Railroad, the steeple of the Methodist Church was blown away, and several frame houses were demolished.

On the Creighton Road, in Henrico County, two miles from Richmond, half a dozen houses were blown down, and two people were injured.

The Chesapeake and Potomac Telephone Company reported that 200 more phones had been put out of commission, making a total of 700 which are not now in service.

The damage inflicted in Richmond by the storm on Sunday was estimated at a quarter of a million dollars. It will now be largely in excess of that, and be probably beyond accurate estimate.

Keysville, Va., Aug. 4—The worst cyclone ever experienced by the oldest inhabitant struck this place about 2:20 yesterday afternoon, demolishing many residences and at this writing it is impossible to estimate the damage.

The Episcopal Church was razed to the ground, the steeple was carried at least 1,000 yards, The Keysville Hotel was badly wrecked some of the guest having hair breadth escapes.

Henry Osborne was struck by a piece of fiying timber and knocked senseless. The homes of Thomas LeGrande, W. A. May and Mrs. J. T. Carey were badly damaged.

The storehouse occupied by Hanner Brothers and the warehouse owned by same parties was almost ruined.

A piece of timber blew on an automobile driven by Vance Wilkerson, and the machine was a wreck while the driver escaped injury. The handsome grove of Charlie Osborne, composed of the handsomest spruce and maple, was laid low. The damage done here in Keysville alone will run up in the thousands, without any insurance. The storm seemed to be only 40 feet wide and lasted only about thirty seconds.

NEW BELGIAN GRAY BOOK

Alleged Intention of Germany to Suppress Small Nations

Havre, August 4—The new Belgian gray book contains a dispatch by Baron Beyens, former Belgian Minister at Berlin, which is published as further proof of Germany's intention to suppress smaller nationalities. The dispatch states that M. Cambon, the French Ambassador, had informed the writer in confidence of a conversation he had had with Foreign Minister Von Jagow, after a private dinner at Von Jagow's house. During a recent absence of Cambon, Von Jagow, meeting the French charge d'affairs and naval attache, had said to them:

"Germany and France ought to come to an understanding about the construction and points of junction of railway lines which they project in Africa in order that there may be no overlapping."

Cambon asked the meaning of these overtures. Von Jagow replied that he and Herr Solf were of the opinion that an understanding between France and Germany and also England would be very useful.

"In such a case," replied the French Ambassador, "we must invite Belgium to the conference, for she has new constructions in project in the Congo. The conference should preferably take place in Brussels."

"By no means" replied von Jagow. "Our agreement would be at Belgium's expense."

"I don't understand," said Cambon.

"Don't you agree that King Leopold has put on Belgium's shoulders a burden greater than she can carry Belgium is not rich enough to carry to fruition an enterprise so vast, so far beyond her means and capabilities of expansion. She will have to give it up."

The French ambassador thought this judgment went too far. Von Jagow, however, pursued his theories and developed the view that the great powers alone were in a position to colonize.

He even expressed the opinion that the smaller nations in the transformation taking place in Europe as a result of the development of communication would not enjoy the independent existence at present enjoyed, but would have to go.

The French Ambassador replied that these were not all the views of France nor, so far as he was aware of England. He agreed there was need of an agreement in regard to African development, but on the lines laid down by Herr von Jagow an agreement was impossible.

Von Jagow then hastened to say the opinions he had expressed were his own private views. He had spoken as a private person, not as a secretary of state. None the less Cambon took a serious view of the position. He conceived it of interest to Belgium to know the feelings which animated German official politics in regard to lesser nations and their colonies.

TURKISH CRUELTY

Women and Children Shot and Bodies Thrown Into River

Paris, August 4—B. Vanazdate, a member of the committee of the Armenian social democratic party, writing to L'Humanite, says the committee has received word that Turks, after massacreing all the males of the population in the region of Bitlis, Turkish Armenia, assembled 9,000 women and children and drove them to the banks of the Tigris, where they shot them and threw the bodies into the river.

The Armenian population of Cilicia in the Turkish vilayet of Adana, also has been subjected to persecution according to the reports of the committee. More than 40,000 persons already are dead and it is feared the Armenians at Moucke and Diarbekr in Kurdestan, also have been massacred. Twenty members of the Armenian socialists democratic party, M. Varadate says, have been publicly hanged in Constantinople, after being charged with wishing to found an independent Armenia.

FIFTY PERISH LAST NIGHT

Storm in Erie, Pa., Causes Many Deaths and Much Damage

TRAINS ARE STALLED

Loss Placed at Three Million Dollars —No Gas or Electricity—Newspapers Set by Hand

Erie, Pa., Aug. 4—Coroner Dan Hanley shortly before 11 oclock this morning placed the number of dead at fifty.

Thirteen bodies were in Coroner Conley's morgue at 9 a. m. today, taken from the ruins of Erie's greatest flood, following three cloudbursts last night. The coroner believes at least twenty are drowned.

The flood tore homes and blocks out of the valley of Mill creek for five hours last night and came as high as the second story of business blocks on upper State street. All railroads entering the city are reported washed out.

Twenty-five Lake Shore trains were stalled between Northwest Pa., and Ere. No gas or electricity was available today, and newspapers were set with hand type. The loss probably will reach $3,000,000.

The first firemen to lose his life in the rescue work of the flood early today was John Donovan, who went down in saving Fire Chief John J. McMahon when a house collapsed in which they were working.

Erie, Pa , Aug. 4.—Twenty persons are believed to be dead in a flood caused by a cloudburst here yesterday. Police say the number may be twenty-five. Water is running from three to five feet deep in the streets.

Many houses have been washed from their foundations. Water reached the second story of others, and rescuers are working to the limit of their ability conveying persons in perilous positions to places of safety.

The city was in darkness last night and all lines of communication are down, with the exception of one telegraph wire at the edge of town.

Fear is felt for the safety of persons living in villages situated in valleys south of this city. The topography of the district is such that the high water would flow south into these valleys.

It is believed that the small houses which mark the villages would prove unable to resist the fierce rush of the flood.

Chicago, Aug .4.—A cloudburst in the Calumet River region of Northern Indiana yesterday precipitated nearly ten inches of rain into the lowlands near Hammond, Ind. As far as known nobody was drowned. The property loss to business men of Hammond alone is nearly a half million dollars.

The lower peninsula of Michigan, Northern Indiana and Southern Illinois was drenched by o ne of the heaviest rainfalls of the year, causing floods in several places.

The storm swept the fashionable north shore suburbs of Kenilworth, Wilmette, Skokie and Glencoe, forcing commuters to wade to their trains.

Joliet, Ill., Aug. 4.—Joliet's east side was under several feet of water yesterday and two creeks running close to the suburbs were roaring rivers as the result of a coludburst that struck Frankfort and New Lennox early yesterday. More than a score of families were driven from their homes and persons in more than 100 other houses were marooned. Enormous crop damage was reported.

FIFTEEN BANDITS KILLED

Three Captured in Battle With Cavalrymen and Farmers in Dense Texas Chapparal.

Brownsville, Tex., Aug. 4—Twelve to 15 Mexican bandits are reported killed and three captured in fighting today with United States cavalrymen and an American civil posse in the low, thick, thorny brush north of Brownville. Private McGuire, of the Twelfth Cavalry, was killed, Private Curtis possibly fatally wounded, Private Capsaddle wounded and Deputy Sheriff C. A. Monahan, of Brownsville, shot in the leg.

The outlaws are believed to be part of the same band which has been marauding in this section, from 20 to 60 miles inside the American border for nearly three weeks.

TROLLEY CRUSHES CHILD

Philadelphia, Aug4 4.—Dashing across Tenth St., at Brown, in front of a south-bound trolley car may cost the life of 7-year-old Victor Tivenski, The whole of the car passed over the boy's left leg below the knee and when he was picked up the foot and lower portion of his leg were supported only by small strands of flesh. The force of the blow rendered him unconscious and he lost a great quantity of blood while being taken to the Roosevelt Hospital in a passing truck. Dr. M. Boston said that the leg would e amputated in an effort to save the youngster's life.

Car Kills Youth.

Abington, Pa., Aug. 4.—Edward 18 year old son of Frank Palmerin, of McKinley, and employed on the country place of Banker Beauveau was run down by a south bound trolley car in Old York road, near here yesterday afternoon.

The car ran partially over him before it could be stopped, and then held him fast underneath for 20 minutes. The boy was conscious and in dreadful pain all this time. He died soon after his release and removal to the Abington Hospital.

ENORMOUS COST OF WAR.

Mass of Payments Unprecedented in History.

London, Aug. 4.—"The City" is unsettled after the August bank holiday. There are three 15 per cent war loan calls due this month, totaling £250,000,000. Such a mass of payments is unprecedented in our history.

All past and current savings are absorbed in the war and no capital is really available for any form of productive enterprise. Nevertheless, American industrials excite some speculative interest and the stock exchange wishes the American war order list had been available here.

The Russian evacuation of Warsaw and Riga is anticipated.

The Westminster Gazette, our most official organ, describes the rapid wastage of the German army and says "the war of exhaustion is in a favorable position." It advocates patience and endurance and ascribes Germany's amazing effort to her mobilization of female and child labor.

Personally, I doubt whether this policy of a war of exhaustion or attrition will be acceptable either to the masses or classes in western Europe, as it must involve the gradual confiscation of property with unimaginable destruction of life.

The Russian national debt, it is stated, will be nearly doubled by the end of the year, and the German increase will be much greater. Perhaps political economy will end the war after all.

FATEFUL LULL IN TUETON DRIVE

Believed German Supply of Ammunition is Retarding Move

CZAR'S RESISTANCE

Von Hindenburg Hopes to Smash Heavily at Russians and at Railroads Which feed Muscovites.

London, Aug. 4.—The stubborn resstance which the Russians are offering to the Austro-Germans, and the slowness with which the forces of the invaders have been able to move during the last few days, has led to the belief in some quarters that the German supply of ammunition is beginning to feel the effect of the protracted struggle, and that Russia may yet save the Polish capital.

Previous experience with German tactics, however, has been that a temporary slowing down was followed soon by greater efforts, and when Field Marshal von Mackensen has concluded his present operations in the southeast, Field Marshal von Hindenburg, it is expected, will renew his heavy blows on the Narew front.

For the moment, therefore, the greatest interest attaches to the south eas, where, according to Berlin official report, the Germans have extended their bridge-head positions south of Warsaw; the Austrians have gained a decisive success to the west of Ivangorod and von Mackensen, after meeting with considerable resistance, has broken the Russian line east of Leczna and north of Chelm.

Similar successes have been gained by the Germans in Courland and in the direction of Lomza. To the minds of many military men, the Courland operations, which General von Buelow is directing, are fraught with the greatest danger to the Russians, as a big victory for the Germans in this region would enable them to move across the railways which feed the Russian armies. Further west they are already near Poniewesch, which is the junction of two branch lines of the Vilna-Petrograd railway.

Zurich, Aug. 4—The Russian defensive has proved much more effective than was expected by the Austro Germans, and has necessitated a complete change in their original plans of campaign, according to private information received here from Munich.

It is learned that the stream of troops from the western front to the eastern zone, which began more than 3 weeks ago, continues undiminished and with greater speed. The places of these troops are being taken by men of five weeks' training. These consist of Landsturm between the ages of 35 and 45, and recruits of 18 and 19 years, all of whom the authorities intended not to send to the front before September, as heretofore no troops have been sent of less than nine weeks' training.

GHOSTS AT SURPRISE.

The synopsis of Ghosts to be seen at the Surprise tonight is as follows:

Alving, a dissolute rake, dies of his excesses, leaving a son, Oswald, who grows up into a young man of excellent habits and morals. Oswald's mother has been warned by the family physician that the son might inherit the vices of the father, but she ignores the advice. As Oswald merges into manhood, however, he begins to show signs of being mentally unbalanced. In the meantime his mother, who wants to see her boy marry early, arranges a match with a young girl with whom he is in love. The physician arrives at the church in time to prevent the marriage, disclosing the fact that Oswald and the girl are brother and sister. The boy is so overcome when he learns the truth that he plunges into dissipation, as the taint of insanity becomes more apparent. Finally, realizing he cannot escape the "clutching hand of heredity," he dies of poison administered by his own hand.

GERMANY ON THE SEA

Britannia Despite Submarines Still Rules The Waves.

The achievements of the Germans on land have been the astonishment of the world. With very little help from Austria-Hungary they have resisted all efforts of France to dislodge them in the west, while they are making a striking campaign into Russia. The German military machine has encountered more resistance than it expected, but it has verified the estimates of its efficiency entertained not only at home, but in the countries fighting it. None of the allies went into this war with a light heart, and the cheerful cry of "On to Berlin" was never taken seriously.

But the efforts of Captain Persius a German naval expert, to prove German prowess upon the sea are absurd. The whole German mercantile marine is out of commission. All the commerce-destroying cruisers, with one possible exception, have been destroyed. There is one cruiser whose fate is unknown. If it has not been destroyed it has been absolutely inert for many months. The Pacific squadron destroyed a British squadron, but was soon thereafter itself destroyed. With the exception of the submarines, all the German navy is carefully bottled up.

The submarine may stir the German imagination, but they do not perceptibly disturb British commerce. The sinking of one vessel in 300 is not a great achievement. The destruction of the Lusitania was hailed by German writers as the end of Britannia's rule over the waves, but British ships are going back and forth on schedule time. Food and munitions are reaching the allies in great quantities. The passage between England and France, absolutely essential to the co-operation of the allies, has never been molested. The submarine began with operations against war vessels, but they quickly gave up, and, with an occasional seagoing victim, their depredations are chiefly upon small fishing vessels.

It still remains true, as it was a year ago, that Germany is the strongest nation upon the land, but Great Britain is the strongest nation upon the sea. The fighting vessels of Germany have only once or twice ventured out of their secure havens, and then only to make a raid or two upon some undefended part of the British coast, guard, and getting back home with great haste after a half hour or an hour of cannonading of a seaside resort or some equally unimportant place. The sea was never more controlled by Great Britain than it is now, notwithstanding all the efforts of the submarines, and a conclusive evidence of this is that the submarines destroy their prizes because they dare not try to take them into a home port. SEES HOSTILE ALLIANCE

Senator Lewis Predicts War With Russia, Germany And Japan.

Asheville, N. C., Aug. 4.—The prediction that Russia, Germany, Japan and China would be arrayed some time in arms against the United States and that this country could not look for aid from England or, under conditions like those at present, from South American powers, was made last night in an address by Senator James Hamilton Lewis, of Illinois, before the State Bar Association of North Carolina. His subject was "America as the International Law Giver of the World Tomorrow."

In preparation for such an eventuality Senator Lewis proposed calling a council of all the governments of South America and then by "alliance make common cause for the protection of republican form of government in the Western Hemisphere."

RESULT OF THE STATE PRIMARY

Anti-Saloon Force Sure of Good Working Majority Next Winter

R. K. BROCK DEFEATED

Man on Whom Fight Was Waged by "Drys" Loses by Large Majority to Major George Allen.

Richmond, Va., Aug. 4—With many wires down and large portions of the State unheard from as the result of a storm, results of the primary election for nominations to the house and senate are in doubt.

Returns so far received show that the 'drys' have won, and will easily have a working majority in both branches of the general assembly for the enactment of laws to carry out the provisions of the enabling act passed at a general election last year.

Several leaders of the "wets" in both senate and house have been defeated.

In the Twenty-eighth senatorial district, where the Antisaloon League waged a hard fight against Senator R. K. Brock, the drys scored a victory by electing George E. Allen by a small majority.

The result of the contest between Aubrey E. Strode and Bland Massie for State senator in the Nineteenth district is still in doubt.

In the Twelfth district where a three-cornered fight was waged H. R. Downing won over S. Gordon Waller, and R. S. Blackburn.

William Tansil Oliver, the leader of the wet forces in the house of delegates, was defeated for re-election by Franklin Williams in Fairfax Co.

In the City of Richmond 17 out of 31 precincts at midnight indicate the re-election of James B. Cannon for State senator and the defeat of Senator Louis O. Wendenburg by Charles W. Hardwicke. The five leaders for the house of delegates were Graham B. Hobson, James H. Price, E. R. Fuller, W. M. Myers and John B. Lightfoot.

In the race for members of the administrative board, Henry P. Beckk, and Eben C. Folkes were re-elected over Marx Gunst, who ran Folkes a close race losing out by less than 800 votes.

Walter T. Oliver for the past eight years member of the house of delegates from Fairfax Co, was defeated yesterday for re-election, by Franklin Williams, Jr., of Vienna. Complete returns are not available on account of telephone lines having been put out of communication by last night's storm, but Williams' majority will be about 200 over Oliver.

Results in Manassas. The Democratic primary was hotly contested in Prince William County despite the fact that the only county office to be filled was that of sheriff. Charles A. Barbe, of Coles, defeated D. J. Arrington by a vote of 651 to 323. Fully 90 per cent of the qualified primary electors cast ballots for supervisors in Manassas District. J. J. Connor won from J. F. Gulick, 194 to 147. For constable in Manassas District E. L. Cornwell defeated I. C. Reid, 175 to 127. In the Gainesville district, for supervisor, O. C. Hutchinson was chosen over W. R. Gosson, 125 to 49. In Brentsville District, for supervisor, the vote was J. P. Kerlin, 81; M. Seese, 7; Joseph Cockrille, 61.

Culpeper Va., August 4—The hotly contested fight for the nomination for the Senate was decided in the Democratic primary held here yesterday, when Senator R. Clyde Bowers carried the counties of Culpepr, Madison and Orange by a majority of 125 to 150 votes. Colonel S. M. Newhouse had a majority of ninety six in Rappahannock. Representative Harry Smith was renominated without opposition.

Warrenton, Va., Aug. 4—Thirteen precincts out of twenty in Fauquier County, give Major Robert A. McIntyre a lead of twenty votes over C. T. Pilcher for the State Senate. The vote is very close, and the remaining precincts may give Pilcher the nomination, as most of these are regarded as strong for Pilcher, yet the race is neck and neck, and nothing definite can be told until the last precinct is heard from. Former State Senator G. L. Fletcher is elected Commonwealth's attorney, defeating F. C. Brook by several hundred majority.

FUNERAL OF MR. MEADE.

The funeral of the late Phillip Nelson Meade took place this morning at Old Pohick Church. The interment was in the family lot in the cemetery of the church. The Rev. Dr. S. A. Wallis, of the Theological Seminary near this city, officiated at the services assisted by Mr. Edward Mellichampe, lay-reader in charge at Pohick Church.

Mr. Made was the son of the late Rev. Everard Meade, D. D., rector of Pohick Church, and a great-grandson of Bishop Meade, of Virginia.

A milk wagon and a buggy collided at King and Columbus streets shortly before noon today and the latter was demolished. No one was hurt.

LAST NIGHT'S TEMPEST

Northeast Wind And Heavy Rains Dealt Blow to Recent Hot Wave.

While the temperature yesterday was not as trying as that of the previous day, it was too high for comfort, and it was not until towards the close of the day that conditions began to change. The wind had been from the southeast and it suddenly came out strong from the northeast and dark clouds began to chase each other across the sky. Early in the night light rain began to fall, but it was not long before they were followed by copious downpours. The wind was gathering in force all the time and by midnight was coming in heavy guests with driving rain.

Between one and two o'clock this morning the wind veered to the south and later to the southwest when heavy gales roared through the streets, causing some anxiety to those who were awake at the time. There was some lightning at this time. Before morning the wind had lost most of its force, and clearing conditions were in evidence.

While the wind attained a high velocity, no serious damage resulted to property in this city. A few trees were blown down and many branches twisted from others.

The tide made high during the night and invaded some of the streets on the river front, causing alarm to merchants. It had resumed its normal condition this morning.

The tide made about eight inches higher than any on record. There was a foot of water in some houses on the Strand, and the damage will amount to several hundred dollars. Generally those engaged in business on the Strand and Union street take necessary precautions and merchandise is placed upon raised floors and platforms in order to escape damage from abnormal tides. Most goods were out of reach of the water last night, but in some cases where t hey had not been removed from first floors damage resulted. The waters laved the front steps of buildings at and near King and Union streets.

The steamer Southland from Norfolk arrived up about on time this morning, as did the Baltimore steamer Northumberland. They passed through the storm without damage.

The storm seems to have been more severe in Washington and vicinity than in Alexandria.

Street-lighting systems and fire alarm circuits were demoralized, basements in many homes were flooded and hundreds of trees, blocking avenues and traffic, were blown down.

The street lighting system of Twining City, Congress Heights, and all street lamps west of Rock Creek Park, including Tennelytown, were disordered.

Awnings from office buildings down town were torn off and rent into shreds by the high wind. All over Washington, homes were flooded under several inches of water.

The storm was equally severe in Baltimore.

Yachts, launches, rowboats and other craft, were torn from their moorings and tossed upon shore, many of them crumpled or badly damaged. The lives of many persons were placed in grave danger and some of them escaped death by a narrow margin. As far as could be learned there were no fatalities.

PEACE SPECTRE WILL NOT DOWN.

Notwithstanding the recent declarations of Great Britain, France Russia of their determination to listen to no peace proposals until Germany is brought to their feet, as well as the avowed purpose of the Kaiser and Francis Joseph to battle on until all enemies of the Teutonic race are rendered hors de combat, peace talk is growing louder.

Discussing the many messages and statements issued in various countries on the first anniversary of the war, the Osservatore Romano, official organ of the Vatican, says:

"Reading these foreign messages we are pleased to note that the language adopted has been modified in tone so that in a sense it is more pacific, or more humane. In place of inexorable war cries and proposals to anihilate the enemy there begins to be substituted a more humane accent. Although circumscribed, we see in this the possibility of a discussion leading to peace. It is a most comforting sign, although very weak as yet."

A dispatch from Berlin says:

"Germany would accept reasonable peace conditions in accordance with the even balance, progress and safety of all nations.' says the Deutsche Tagezeitung in discussing the recent peace proclamation of Pope Benedict XV. No country would receive a proclamation by the heads of the Roman Catholic Church with greater respect and less prejudice than Germany,' the newspaper continues.

The foregoing item was allowed to pass by the German censor and was sent by wireless to London and Paris. It was the second time in two days that influential German newspapers have openly announced Germany's willingness to accept Pope Benedict XV as meditator in peace negotiations, the Koelnische Zeitung publishing an editoral of similar tenor yesterday.

Pope Benedict's appeal for peace has elicited from the French Cardinals Lucon of Rheims. Andrieu of Bordeaux, Cabrieres of Montpellier and Sevin of Lyons a joint letter enjoining all French bishops to appoint a day of prayer for "the blessing of a durable peace, with the triumps of our army.'"

Cardinal Amette. Archbishop of Paris did not sign the letter, but he has issued a pastoral letter to the clergy and the faithful of his diocese on the occasion of the Feast of the Assumption, recalling the story of Joan of Arc, who replied to the theologians objecting that if God decided to give victory to Charles VII it was needless to fight, by saying:

"Soldiers should fight and God will give victory."

The "white ghost,'" an apparition whose presence portends victory, has again appeared in the Russian army. Many Russian sentinels have declared within the past few days that they saw the ghost in the dead of night. This ghost is supposed to be the spirit of Gen. Skobelif, clothed in white and astride a white horse. It is a tradition in the Russian army that, if the white spirit appears at a critical moment defeat will be turned into victory. Its presence invariably causes panic in the ranks of the enemy.

GREAT BRITAIN'S LATEST REPLIES.

Great Britain's replies to the latest American representations against interferences with neutral commerce reject entirely the contention that the orders in council are illegal and justify the British course as being wholly within international law.

"Unsustainable either in point of law or upon principles of international equity," is the British reply to the American protest against the blockade of neutral ports, with an invitation to submit to international arbitration any cases in which the United States is dissatisfied with the action of British prize courts.

Publication by the State Department of the notes exchanged between the United States and Great Britain relative to these matters disclose the bald fact that, for any immediate relief, the Washington Government is up against a stone wall'

These answers had, in the main, been anticipated. Great Britan, it was suggested, would call attention to the fact that the blockade of the Southern ports by this country during the war between the state was as ironclad as that now being exercised by England against Germany.

STRASSBURG AGAIN IN DANGER.

A flotilla of Anglo-French aeroplanes yesterday flew over the city of Strassburg and dropped 25 bombs, The extent of the damage has not been ascertained. Strassburg is the capital of Alace-Loraine.

This old and interesting city was a part of Germany in the days of Louis XIV. Without offering any reason whatever, this monarch took forcible possession of the place in a time of peace and annexed it to France. After the close of the Franco Prussian war in 1871 it was again made a part of Germany. While that conflict was raging there was danger of the city being bombarded, and many appeals were made to the belligerents to spare the famous clock which has for centuries been studied with interest by travelers from every country. It is hoped that the French at this time will not play the part of Ephesian temple-burners.

PASSING OF THE HOT WAVE.

The torrid conditions of the past week or ten days received a decided setback last night from a veritable tempest. The night was wild—high winds, heavy rains and at times lightning vied in the weird scene. Alexandria, as is so often the case, escaped material damage from the elemental forces, but it was not so elsewhere. The passing of the hot wave brought not only damage in some places, but death. A cloudburst in Erie, Pa., caused the death of at least twenty-five people last night Parts of Indiana and Illinois suffered severely from the storm, while conditions in Richmond, Washington and Baltimore were far more serious than in Alexandria.

The formidable Austrian defenses on Mount Podgoro and on Mount San Michele are no longer recognizable, the Italian artillery having done its work so well. A few days saw the destruction of what cost Austria a vast sum of money to build. A large proportion of the Austrian losses were caused not by the Italian fire, but by the hurling down of rocks. Over 10,000 men were thus crushed to death in their trenches. At San Martini no fewer than 2,500 Austrian dead were found in a group of trenches, crushed by falling rock.

The latter thought she had been hit by lightning, and she it was who screamed. They were both badly scared, but not in the least hurt.

Examination of the books of the Negro Historical and Industrial Association by State Accountant W. Frank Smyth discloses that President Giles B. Jackson and the executive committee spent more money than they obtained from all known sources, including the appropriation made by Congress. It is said that the most valuable asset of the association, or one of the most valuable is Giles Jackson's book, "The History of the Negro Race in the United States." The directors who filed complaint against Jackson objected most strenuously to the purchase of the copyright to this piece of literary property from the author. Jackson's remuneration from this source is solely in the form of royalties to be paid him as the book is sold.

GALE WHIPS LAKE ONTARIO

Vessels Return to Port Badly Battered—Man Drowned.

Toronto, Aug. 4.—Lake Ontario was whipped yesterday by a howling gale, the worst in 12 years.

The steamer Chippewa, after being out two hours, came back to Toronto with a big hole in her side, battered in by heavy seas. The Garden City, from Toronto to Port Dalhousie, Ontario, lost eight feet of her upper works after being out an hour and a half and returned to port. The Dalhousie City lost her bearings altogether and was located by wireless.

The Cayuga, having on board a number of recruits for the camp at Niagara, battled four hours with the waves before she could make a landing.

During the night heavy seas washed C. H. Bastors overboard from a launch on which he, his wife and three brothers had started for Whitby, 28 miles away. He was drowned.

After a night of helpless drifting before the gale the others were rescued.

ADOPT POLICY OF U S

Latin American Governments Agree to Tentative Plans

Washington, Aug. 4—Latin-American governments already have been sounded out and have indicated their acquiescence in a plan tentatively outlined to them as the next step in this government's policy toward Mexico.

They have agreed with the United States as to what the nature of this next step should be, and the conference at the State Department tomorrow, at which six of the Latin-American States will be represented—Argentina, Brazil, Chile, Guatemala Bolivia and Uraguay—will be to discuss steps toward putting the plan into operation and the personalities to which this government will offer its 'active moral support."

GERMANS MASQUERADING

Detachment of Teutons Who Took Clothes from Enemy Dead, Wiped out by Cossacks

Petrograd, Aug. 4—A detachment of 1500 German soldiers, disguised in uniforms taken from the bodies of dead Russian soldiers, were annihilated by Cossacks while trying to throw a pontoon bridge across the Viepriz River, east of Ivangorod.

The Germans have lost very heavily around Ivangorod, and the fields and woods are full of unburied corpses.

Field Marshal von Hindenburg has received re-enforcements from the western front, it is reported from Warsaw. He is personally directing the operations of the Germans upon the Narew-Bug River front, where the Teutonic forces are striving to cut the Warsaw-Ostrolenka Railway a branch of the Warsaw Petrograd Railway, although that army is nominally under Gen von Gallwitz.

CAUGHT BY FLOOD IN MINE

Some Wade Up To Their Necks For A Mile to Safety

Indiana, Pa., Aug. 4—Wading in water, at times up to their necks, 450 miners escaped early yesterday from the Sample Run Mine, near here after being imprisoned for several hours.

During the night heavy rains over the watershed so swelled a little stream near the opening that a great volume of water poured into the mine. Before the alarm was given, exit by the usual way was cut off and the men, gathered in the main entry from the cross entries and rooms, made their way to an air shaft and climbed to safety.

Some of the men waded in water for almost a mile. It was said that 10 days would be requred to drain the working.

ALL WRONG

The Mistake Is Made By Many Alexandria Citizens

Look for the cause of backache.
To be cured you must know the cause.
If it's weak kidneys you must set the kidneys working right.
An Alexandria resident tells you how.

Mrs. A. Waring, 304 N. Patrick St., Alexandria, says: "I suffered awfully at times from my back and inflammation of the bladder. I used to be in such misery during these attacks that I had to have injections of morphine to relieve the pain. My back ached so badly, that I thought it would kill me. The kidney secretions caused me terrible suffering and the pains in the top and back of my head nearly drove me insane. I often got so dizzy that I could hardly keep from falling and I felt sick all over. Nothing did me any good until I began taking Doan's Kidney Pills, procured at E. S. Leadbeater and Son's Drug Store. The first box gave me great relief. I used several boxes altogether and they stopped that awful pain in my back and head and made my kidneys normal. Since then, I have taken Doan's Kidney Pills as soon as I have noticed any signs of kidney disorder and they have never failed to give me quick relief."

Price 50c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills— the same that Mrs. Waring had. Foster-Milburn Co., Props., Buffalo, N. Y.
